MEMORANDUM FOR FRANK PRESS, OFFICE OF SCIENCE AND TECHNOLOGY POLICY

SUBJECT: Redraft of Civil Space Policy Issue #7

In response to yesterday's PRC Meeting. I would like to suggest the following language for the redrafting of Issue #7, Co-ordination between sectors:

VI Co-ordination of Activities among the Civil, Military, and National Intelligence Sectors

Issue #7--How should adequate coordination among the civil, military, and national intelligence sectors be assured?

Assure that adequate mechanisms exist for co-ordination of areas of mutual interest between the various sectors of the U.S. space program, for sharing of technology, data, facilities, and projects where appropriate, and for the avoidance of unnecessary duplication between the sectors; in accordance with established national space policy and the maintenance of necessary security.
